

Evelyn Green
2017 Region IV Director

In 1979 our family moved to Corpus Christi, Texas for my husband's company. I was fortunate to find a position with an oil and gas company, but not having any experience or knowledge about this industry, I immediately joined the Corpus Christi Desk and Derrick Club. When we were transferred back to San Antonio a year later, I immediately transferred my membership to the San Antonio Desk and Derrick Club upon beginning my position with another oil and gas company, where I have been for over 37 years. Desk and Derrick has given me the opportunity to grow personally and to learn about this wonderful industry through the education at seminars, field trips and the speakers at the membership meetings. Having served at Club Level, Regional Level and the Association level, I continue to learn every day. The friendships that I have formed over these years are an important part of my life and these individuals are my extended family. Desk and Derrick affords the same opportunity to every member – it's there for the taking! My motto: *You can't succeed if you don't try!*
