

Bio for Terry Ligor

I joined the Desk and Derrick Club of Graham in 1990. At the time it was a choice of either the Ladies Golf Association at the Country Club or Desk and Derrick; they met on the same day. As you know, I chose Desk and Derrick and have never had any regrets. My family is fortunate enough to own our own business; we have an oilfield production chemical company. Desk and Derrick has given me many things - leadership abilities, self-confidence, knowledge of the ever-changing energy industry and so many friends that are very precious to me. I have a real passion for Desk and Derrick; it is an integral part of who I am today.
