

P. WAYNE AMMONS

A 23-year veteran of the oil and gas industry, Wayne began his career in June 1993, focusing on information management at Riley Natural Gas Company. When he left the company in 1999, he was administering natural gas contracts and conducting natural gas transportation and exchange. From October 1999 to March 2013, Wayne continued his career at PDC Energy, Inc., specializing in oil and gas production accounting and regulatory reporting; programming spreadsheets, databases, and software applications; oil and gas field data capture information systems; and data conversion. He was a key team member in working with the company's Operations districts to identify underperforming properties and devise methods for enhancing production. Wayne also trained other members of the organization.

Wayne was employed by CONSOL Energy Inc. from March 2013 to November 2014, when he decided to take his part-time computer services business of five years to the next level. Proprietor of K & E Computer Services since November 2009, Wayne continues his career in oil and gas as an energy technologies consultant.

A lifetime resident of West Virginia, Wayne is an honors graduate of Fairmont State University. In May 2011, he earned a Bachelor of Science Degree in Business Administration, majoring in Finance, and completing a minor in Information Systems. In August 2011, Wayne became a Project Management Certified Professional.

Wayne was a member of the West Virginia Desk and Derrick Club from May 2011 to April 2013. He was Webmaster for the Club and served on the Board of Directors as a 2012 Director. Wayne received an *Above and Beyond Award* from the Club in 2011. A member of the West Virginia Desk and Derrick Club since January 2015, Wayne is in his fourth year as Webmaster for the Association of Desk and Derrick Clubs.

Wayne enjoys spending time with family, making new friends, networking, and promoting energy and technology. He also enjoys learning new skills, acquiring new responsibilities, working with details, and completing projects accurately and efficiently.

Wayne and wife, Jennifer, have been married since 2003 and live near Weston, West Virginia. They have two daughters, Kirsten and Elizabeth, and three dachshunds, Spike, Oskar, and Daisy.
